## About Bridgend Corporate Parenting Board's Children and Young People Achievement Awards 2024

The Bridgend Corporate Parenting Board is a **multiagency group** that is represented through council and external agencies and organisations. **Their primary role is to agree to work collaboratively, as corporate parents, on supporting children and young people who are care experienced and care leavers.**

### **Bridgend Corporate Parenting Board launch strategy**

The Bridgend Corporate Parenting Board was established in November 2022, and in the following year they published the **Bridgend Corporate Parenting Strategy** which was co-produced and launched by care experienced children and young people.

Several organisations involved with the parenting board have **specific statutory responsibilities** for these children and young people, and along with working together, they hold each other accountable on how effectively they support the children and young people.

### **Celebrating Care Experienced Young People**

As corporate parents, the parenting board is **committed to recognising their care experienced children and young people and their achievements** through celebration events. The last celebration event took place in September 2023, where more than 30 young people were recognised for their endeavours and achievement in education, training, and employment.
