ILLUSTRATIVE PROVING LAYOUT

## Community Cross Links

The existing dual hedgerow feature traversing the site will be ratified as an informal walking trail - **Y Berth/ The Hedgerows**. Openings in the route will ensure a safe, attractive and convenient trail experience.

The existing Public Right of Way through the site will be realigned along retained hedgerows and areas of open space to provide a more naturalistic and accessible connection. The **Parc Llangewydd Trail** (PROW) will connect the site to the wider Bridgend Circular Route. Opening along the route will provide space for 'natural' play stations forming part of the wider **Trim/Play Trail**.

## Natural Edges

**Western Linear Park** will provide a natural, soft buffer to the outer edges of the site. The existing green hedgerows and trees along the lane will be retained and form the edge of a new natural park. A **Trim/Play trail** could be provided along the length of the linear park with equipped/ natural 'stations' providing opportunity for exercise and imaginative play.

**The Parc Eirin Community SINC** to the north/north-east is protected because of its nature conservation value, will be celebrated as a multifunctional 'green and blue' asset. Opportunities to create **Community Walks** and wetland areas in existing glades will extend the habitat, manage water and allow people to enjoy and appreciate nature without harming the sensitive environment.

## Green Streets & Amenity Space

A network of attractively landscaped **Green Streets and Spaces** provided across the development will accommodate and link the essential green infrastructure for the site. Landscaped **SUDS features** will be integrated to manage surface water and create an aesthetically pleasing area to travel through. Other 'green elements' including generous gardens, hedges, trees, street trees and planting will provide further amenity space and help increase habitat and biodiversity.

## Natural Parks

**Northern Park, Avenue Park, Grow Garden and Southern Gateway** will form a collection of softer areas of open space. The design of these spaces will incorporate unequipped natural spaces that encourage imaginative play, accommodate SUDS and support biodiversity.

## Civic Parks

**Community Green and Trail Park** will be located along the primary and secondary street network, well served by a designated walking and cycling paths. They will form the main 'civic' spaces to the development. The design of these space will incorporate both active and quiet areas and accommodate a wide range of activities, including formal equipped play areas and SUDS features integrated in a naturalistic way.

## Formal Outdoor Sport Provision

**Parc Llangewydd Primary School** will play a much wider and multi-functional role in the community through addressing both the broad range of educational needs of children and young people during traditional school opening hours and also acting as community-based learning and recreational environments, especially during out-of-school hours and school holidays. A range of formal active recreational uses will be

provided on site, such as pitches, green courts and formal trim trails which could be made available to the wider community.

**Bryntirion Playing Fields, Penybont Football Club and Cylch Meithrin Gwdihwed Community Centre** are located to the north-east of the development, providing large outdoor areas of space and a play park for the wider community to utilise.
